# General information about this document

## 1. General points

This document is the property of the HILTI Corporation. The document and its contents are confidential and may be neither reproduced nor published without approval. All rights reserved.

## 2. Contents of Document

This document describes one of 6 requirement modules in the Hilti V-Model, either completely or partially/filtered. In the case of a document excerpt, the filter used is described on the next page.

Module	Requirement type
REQ	Stakeholder requirement
SPEC	System specification requirement
DES	Design specification requirement
RT	Requirement Test
ST	System Test
DT	Design Test

This document contains the following, project-specific information:

- Specification of product requirements (in accordance with the respective module)
- Descriptions and information for understanding the specified product requirements

## 3. Exclusion

All project requirements (organizational basic conditions, responsibilities, resources, costs and scheduling) are listed in a separate document.

Project requirements listed in this document have no binding character in this document.

## 4. Purpose of document

The contents of the document can, when combined with other module contents and the project requirements, be combined to form binding requirement documents (e.g.: development contracts).

The contents of the document can be used as a template for planned requirement reviews. In addition, this document and its contents can serve as a criterion for fulfilling a development order.

## 5. Validity

The release date of the document does not necessarily match the validity date. It replaces all documents with lower indexes. The handling of content changes must be agreed on for specific projects.

## 6. Copyright / Use

All contents of this document, and in particular texts, photographs and graphics, are protected by copyright.

Unless expressly marked otherwise, the copyright is held by Hilti AG. The complete or partial use of the contents must be coordinated with and approved by the respective responsible persons at Hilti.

Any disclosure to third parties is strictly prohibited and requires the explicit permission of Hilti AG.
