

GLOSSAR

Tool / <product> = A Hilti tool which is part of Hilti Fleet or shall be used in combination with ON!Track (this applies to almost all electronic and direct fastening tools)

ON!Track = Hilti's asset management system. ON!Track enables different connectivity use cases for tools

Tags = Small electronic devices which are attached to tools and provide different features for ON!Track. Usually: Bluetooth beacons, barcode, different sensors

Labels = Stickers which provide additional information for Fleet and/or barcodes for ON!Track*

Tag Slot = Unified interface which can fit either a label or a tag

*) There is always only one tag or label space on the tool, no matter whether the customer has fleet and ON!Track and no matter which use cases he decides for.
